

EXHIBITION FREIGHTING G.S.M

Freighting goods to SA for an exhibition? Here's why you should be using Exhibition Freighting G.S.M.

HOW WE WORK:

1. Instruct our colleagues in your country to make contact with you

2. Collect your display material from your door

3. Import your product into South Africa

4. Take care of necessary ZA customs procedures

5. Store your products until the build-up date of the event

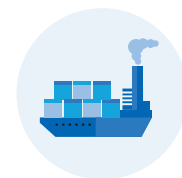

6. Deliver your products to your booth

7. Store the empty packages

8. Visit you and discuss the outward movement of your products from the event.

9. Re-export your products back to its origin or send it onto another event.

If you use your own agent or a courier:

- They will collect your material from your door and send the product to SA, but...
- They will **not** be able to clear your shipment, as your agent/courier is **not** a registered importer.
- You will then be requested to make contact with us – a registered importer.
- Therefore, **IT IS ESSENTIAL TO DO YOUR RESEARCH.**

N.B You need to be a registered importer to bring goods into South Africa.

Please contact us for your shipping requirements on:
Tel: +27 21 552 7248 | Fax: +27 552 2349 | Email: ef-gsm@ef-gsm.co.za
